## Read the Story

9     Take a walk on a hot night. Watch for  
17    tiny bright lights. The lights might flash one  
24    time. They might flash many times. They  
32    might flash by the grass. They might flash  
in the sky. Each light is a firefly.

40     A firefly flies at night. It lights up as it  
50    flies. It tries to find other fireflies. It lights  
59    up to find a mate. A firefly dies after  
68    mating.

69     You can catch fireflies. Try to catch  
76    one in your hand. Its light will feel cold.
