tracks	what a train moves on

Write a Prediction

Read the Story

7 Trains take things to many places. They
16 take food to the city. They take new cars
24 from city to city. Trains take people places
31 too. Some people eat on trains. Some
39 people sleep on trains too. A long time
46 ago, many people rode on trains. Now
54 more people ride in cars. A train has
61 many wheels. The wheels run on tracks.
71 The engine is the first car on a train. It
79 pulls the train on the tracks. The caboose
88 is the last car. The caboose is for the
95 workers. They eat in the caboose. They
100 sleep in the caboose too.

Cold Timing Score: _____ Final Timing Score: _____
