

The Multiplication Table

A multiplication table is a good way to learn your basic multiplication facts. Put one index finger on a number on the top of the table. Put your other index finger on a number on the side of the table. Follow the row across and down from each number until your fingers meet. That is the product for multiplying those two numbers! **Example: $3 \times 3 = 9$**

0	1	2	3	4	5	6	7	8	9	10
1	1	2	3	4	5	6	7	8	9	10
2	2	4	6	8	10	12	14	16	18	20
3	3	6	9	12	15	18	21	24	27	30
4	4	8	12	16	20	24	28	32	36	40
5	5	10	15	20	25	30	35	40	45	50
6	6	12	18	24	30	36	42	48	54	60
7	7	14	21	28	35	42	49	56	63	70
8	8	16	24	32	40	48	56	64	72	80
9	9	18	27	36	45	54	63	72	81	90
10	10	20	30	40	50	60	70	80	90	100
